# Living 2025

Our Living 2025 collection will let you dive into a more ecofriendly world.

We are enlarging our assortment of solar and rechargeable products,  
and we will provide you with products that give you a great ambiance  
of glow, softness and warmth.

Our philosophy is to combine environmentally friendly lights  
with a great design and a perfect function.

And we try our very best to give you the most beautiful lights  
for your home and your garden.

Enjoy

## SIRIUS Partners:

We have a close collaboration with "LUNGEFORENINGEN", who are very happy with our  
Sille Candles and artificial Christmas trees, which are better for our lungs and the indoor climate.

"MUSIK I LEJET" is one of Denmark's most popular music festivals in Tisvildeleje.  
The festival creates coziness and atmosphere with our large range of colored  
lamps & outdoor lighting as well as project lighting.

We have a great collaboration with the "MUSKELSVINDFONDEN" through  
"GRØN KONCERT" music and "CIRKUS JUL" for the children.

Our cooperation with "LIONS" have lasted for more than 30 years and is still ongoing.  
They are grateful for our donations so they can help their cause.

# The Solar Collection

## Step 1

Place the solar panel of your Sirius light under direct sunlight.

## Step 2

Leave the product to charge in the sun during the day.

## Step 3

If compatible, use the Sirius remote timer function to set your products to turn on and off at a specific time every day.

### PLEASE NOTE

Products without an ON/OFF button will automatically turn on after the sun sets.

## Find me

Our solar collection is labeled with this solar icon.

Our rechargeable and solar ranges are labeled with the GREEN ENERGY logo.

# Aston

Aston Solar Jar is inspired by the maritime atmosphere of a summer night around the harbour. Aston combines sustainability and functionality in one, where 2 hours in the sun will keep the jars powered through the night. Use the Sirius remote to turn on according to your preferred time interval.

## MIX AND MATCH AND BUILD YOUR OWN SAMSON LINE

Create your own pattern, and order the start set and bulbs separately.

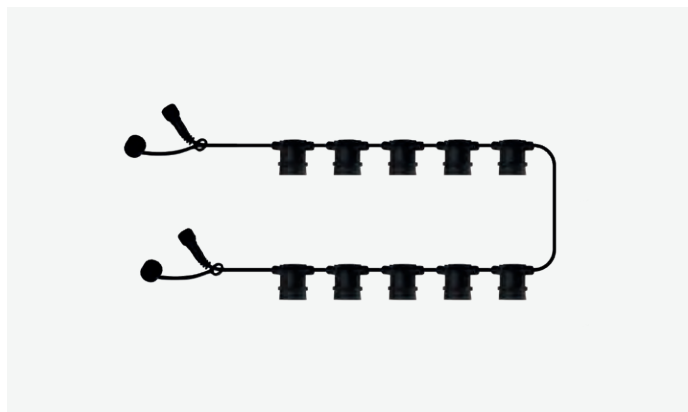

# Samson

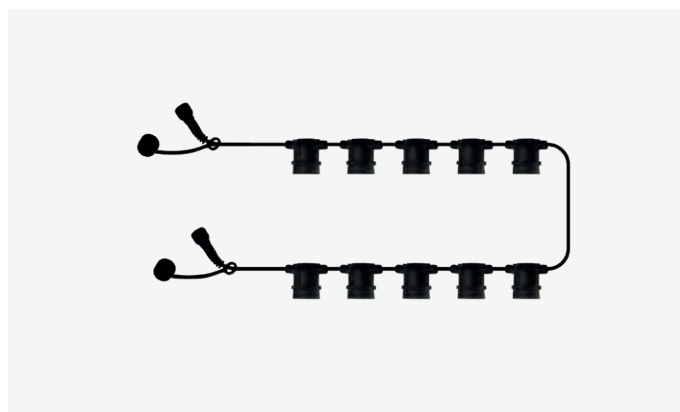

The party won't start until the high end quality Samson lights are turned on. Samson are an professional extendable system that can connect up to 100 LEDs, made of acrylic bulbs that will give a soft light effect. The light string can be bought without the bulbs, allowing you to mix and match the colours as you wish.

# The Rechargeable Collection

REMEMBER THE MULTICHARGER

## Step 1

Plug in your multicharger to an outlet.

## Step 2

On the multicharger, slide the button towards the function compatible with the lights you need to recharge.

## Step 3

Place your rechargeable lights on the multicharger, and make sure the LED lights on the plate turn red.

## Step 4

Only remove the decoration from the multicharger when the plate's LED turn from red to green.

### PLEASE NOTE

The red and green LEDs indicate the product battery level.

INDICATE THE PRODUCT'S BATTERY LEVEL

# Multicharger

The Sirius Multicharger is essential to the Sirius rechargeable range. It enables the lights to recharge when they are low on battery. The small LEDs on the multicharger indicates the battery level of your light. Once the LED has turned from red to green, your Sirius product is ready to be used once again. Make sure to slide the button of the multicharger to select the correct charging function before placing the rechargeable lights on.

# A Guide to THE REMOTE CONTROL

## Step 1

Point the remote control to the compatible Sirius lights.

## Step 2

Use the timer function to set your products to turn on and off at a specific time every day.

## Step 3

Use the dimmer function to chose the light intensity of your choice.  
The dimmer function has 3 different intensities.

## Find me

The Sirius lights that are compatible with the remote are marked with this remote icon.

# Remote

CR2032

The Sirius Remote Control is made of a matt aluminum finish, and combines both aesthetics and functionality at once. Use the built-in timer, dimmer or ON/OFF functions to control your Sirius lights simultaneously. Note the remote has an average range of approximately 10 meters.

# Multicharger

## Step 1

Plug in your multicharger to an outlet.

## Step 2

On the multicharger, slide the button towards the function compatible with the lights you need to recharge.

## Step 3

Place your rechargeable lights on the multicharger, and make sure the LED lights on the plate turn red.

## Step 4

Only remove the decoration from the multicharger when the plate's LED turn from red to green.

### PLEASE NOTE

The red and green LEDs indicate the product battery level.

## Find me

Our rechargeable collection is labeled with this multicharger icon.

Our rechargeable and solar range are labeled with the GREEN ENERGY logo.
